OBJECTIVE

To work in a challenging environment that provides generous opportunities for learning & advancement in my career.

WORK EXPERIENCE

Vetologic Technologies Private Limited

(January 2020 - Present)

Full Stack Web Developer

- Wrote modern, performant, and robust code for a diverse array of client and internal projects
- Worked with a variety of different languages, frameworks, and content management systems such as Java, JavaScript, TypeScript, Angular, etc.
- Worked with a team of 2 developers to build an enterprise application to help Chartered Accountants manage their tasks

EDUCATION

Jspiders Software Training Institute

(July 2019 - December 2019)

Course on Java Full Stack Development

Completed a course on Java full stack development in Jspiders Software Training Institute, Bangalore.

Nandha College of Technology

(August 2013 - May 2017)

Bachelor's Degree Civil Engineering

7.69

PROJECTS

Spotify Profile

May 2020

https://www.spotify-profile-angular.herokuapp.com/

A web app that allows you to follow artists, favourite tracks, display your favourite albums, playlists, artists and recently played tracks from your Spotify Profile from Spotify Web Api.

Portfolio

June 2020

https://www.logesh-kannan.web.app/

My first portfolio website I built in 2020. I was interested in learning React.js, so started a project with some tutorials and ended up building a portfolio website for myself.

Weather Report

July 2020

A simple weather report app (PWA) developed to display weather data of selected cities that uses OpenWeatherMap's Weather API. I listened to a podcast about Progressive Web Apps so wanted to give it a try.
